

THINKING AHEAD!

All new students and those entering k,2,4 and 7 are required by the State of New York to have a physical on file. Please schedule ASAP!

All Kindergarten students must have a second Measles Mump Reubella (MMR) shot for entrance in September.

All students entering Grade 6 must have a new DPT (Tetanus with Pertussis) and proof of Varicella (chicken pox) before they enter school in September.

It is much easier on your physician if you schedule these visits now! From April to August they are extremely busy with physicals.

Students who do not have immunizations complete will be excluded from school in September if shots are missing.
